REVISTA PORTUGUESA DE ESTUDOS REGIONAIS/ PORTUGUESE REVIEW OF REGIONAL STUDIES

Dear participants on 55th ERSA Congress, Lisbon, 25 – 29 August 2015.

Let me introduce you to the Revista Portuguesa de Estudos Regionais – RPER / Portuguese Review on Regional Studies. RPER is a scientific journal sponsored by the Portuguese Association of Regional Development that co-organizes the ERSA Congress. The main purpose of RPER is to publish the results of the most recent research in the interdisciplinary area of Regional Science, embracing regional, local and urban studies. It is a peer-reviewed journal, publishing in Portuguese and in English, since 2003. It has already published 38 issues and almost 250 articles on all the areas of the regional science scope. RPER is indexed in Scopus, Econlit (and associated bases: JEL on CD, e-JEL and Journal of Economic Literature) and acknowledged by the Brazilian Webqualis. You may find more information on our journal in the site on internet:

<http://www.apdr.pt/siteRPER/EN/homeEN.html>

So it is my pleasure, in my quality of director of RPER, to invite you to submit your communication to this Congress to our journal. Please take into account that RPER only accepts original papers. When submitting your paper you will be requested to sign a formal statement that the article is non-published and non-submitted anywhere else. Of course, if you have other paper in our common area of Regional Science, we will be happy to consider it for publication as well. Please be aware that the RPER refereeing process is a toughly one and completely independent of the acceptance of you paper in the ERSA Congress. For submitting a paper, please remit it to **rper.geral@gmail.com**

Looking forward to see you publishing in our journal, I express you my best wishes.

Pedro N. Ramos
(RPER Director)

Welcome to Lisbon

Dear Colleagues

Welcome to Lisbon, city of Ulysses, from where you can look at Greece and Europe; with sufficient distance to dream feasible futures; with enough involvement to create them; and with unavoidable proximity to enjoy and suffer from your deeds.

We do not have many hours to potentiate those crucial moments in the end of August in the diversified sessions of the Congress; so please participate full time in it: for this we have prepared the best plenary moments and arranged the sessions to potentiate fruitful interactions to understand and improve our places and our peoples.

There is plenty of time after six to visit Lisbon. Lose and find yourself in the fantastic labyrinths of the city center: walk down the hill of the Castel through Alfama, maybe you can listen some good music in Clube do Fado; climb from Rossio to Chiado, drink a beer in Trindade and have dinner in Bairro Alto; pick up a tram in Terreiro do Paço and eat a “nata” in Belém after a dinner in the open. And do not forget to know the place of the congress, it is in the valley west of the city center very close to the Portuguese Assembly.

Please remember to talk about the theme of the Congress: *“World Renaissance: Changing roles for people and places”*. The same way the first globalization changed the role for peoples and places, for sure the one that we are experiencing will also bring structural changes in histories and geographies. What are the dreams and tragedies of the Homeros and Camões of today? That is what we would like you to share with each other. There is no better place to do it.

And do not blame the food or the drink, the sun and the light. It is one of the bests in the world.

Many thanks

Tomaz Dentinho
Chair of the Local Organizing Committee

Words from our ERSa President

On behalf of the European Regional Science community, I am very delighted to welcome you all to our 55th European Congress on *'World Renaissance: Changing roles for people and places'* in the global city of Lisbon.

In this year's conference programme I am honoured to say that we have delegates from 54 countries around the world. We will have over 800 presentations scheduled for this year's Congress in Lisbon, as from the 25-28th August 2015 creating a new energy of Regional Science.

We have a special Friday session with the presence of the European Commissioner on Regional Policy - **Corina Creţu** and the Portuguese Minister for Regional Development - **Miguel Poiães Maduro** who will be delivering their speeches at the Portuguese Parliament.

As for ERSa, we continue to partner our alliance with organisations and institutions in enhancing the academic expertise of our members, through the economic growth and social developments across Europe. Our intention is to maintain and improve the high-level of our Congresses, Summer Schools, Workshops and other events, through fostering research excellence as well as supporting promising young scientists, to new dimensions in Regional Science.

I am very pleased to announce that ERSa activities continue to grow with the support of our members and its Sections with the support of the *REGION* journal, the local activities of the Section's conferences and workshops.

And in this year, ERSa will be present along with other associations at the European Commission OPEN DAYS event in October. Especially, linked to the University part of the programme which *"facilitates the creation of networking links between students, academics, EU institutions and regional partners and raises awareness, attracting students and young researchers to the topic of the EU cohesion policy"*. (Source: EU Open Days homepage)

I also would like to thank Tomaz PONCE DENTINHO, the chair of the LOC and his team for their two years dedication and passionate hard work of which we will enjoy in this historical city, over the next 4 days.

I would like to take this opportunity to wish you a fruitful participation!

Welcome to Lisbon!

Jouke van Dijk

Professor and President of the European Regional Science Association (ERSa)
